emuca.com

“Una vasta gamma di soluzioni innovative e competitive per il settore dell’arredamento, della falegnameria, della ferramenta e del fai da te.

“A wide range of innovative and competitive solutions for the furniture, carpentry, hardware and DIY sectors.

Cosa vi offriamo?

Vi offriamo i nostri oltre **40 anni di esperienza sul mercato** per ottimizzare la produzione e aggiungere valore ai vostri mobili, sviluppando un'ampia gamma di soluzioni innovative e competitive per la vostra attività.

Con una presenza in Italia, Spagna, Regno Unito, Francia e Portogallo, siamo vicini a **più di 5.000 clienti in 60 Paesi.**

Come lo facciamo?

Mettiamo a vostra disposizione un **team tecnico e creativo che vi accompagna in ogni fase**, offrendovi un servizio attento e onesto. Inoltre, vi offriamo un ecosistema digitale completo per ispirarvi e facilitare l'applicazione dei nostri prodotti ai vostri mobili.

Innovazione strategica

Uniamo gli sforzi dei nostri team di innovazione, business intelligence, qualità e marketing per sviluppare **prodotti realmente adatti alle vostre esigenze.**

Il nostro **know-how europeo,** influenzato dall'esigente mercato italiano, garantisce soluzioni con un perfetto equilibrio tra **design, qualità e funzionalità.** Insieme al nostro servizio affidabile e prevedibile, siamo un partner strategico per la vostra attività.

What do we offer you?

*We offer you our more than **40 years of experience** in the market to optimise production and add value to your furniture, developing a wide variety of innovative and competitive solutions for your business.*

*With a presence in Italy, Spain, the UK, France and Portugal, we have close to **more than 5,000 customers in 60 countries.***

How do we do it?

*We provide you with a **technical and creative team that accompanies you** at every stage, offering a close and honest service. In addition, we offer you a complete digital ecosystem to inspire you and facilitate the application of our products to your furniture.*

Strategic Innovation

*We combine the efforts of our innovation, business intelligence, quality and marketing teams to develop **products that really fit your needs.***

*Our **European know-how**, influenced by the demanding Italian market, guarantees solutions with a perfect balance between **design, quality and functionality**. Combined with our reliable and predictable service, we are a strategic partner for your business.*

Qualità garantita

Il nostro requisito principale è la qualità. Tutti i prodotti che produciamo e vendiamo **sono conformi agli attuali standard europei** in termini di servizio, processi e prodotti.

La base della nostra politica di gestione è il miglioramento continuo per garantire la soddisfazione del cliente e mantenere standard di qualità eccezionali.

Guaranteed quality

*Our main requirement is quality. All the products we manufacture and sell **comply with current European standards** in terms of service, processes and products.*

The basis of our Management Policy is continuous improvement to ensure customer satisfaction while maintaining exceptional quality standards.

Ampia gamma. I numeri ci danno ragione

Wide range. The numbers back us up

+11 milioni di Cerniere	*+ 11 million hinges*
+ 7 milioni di guide per cassetti	*+ 7 million drawer runners*
+ 1 milione di cassetti	*+ 1 million drawers*
+ 250.000 metri di strisce LED	*+ 250,000 metres of LED Strips*

Affidabilità

Prendiamo molto sul serio la soddisfazione dei nostri clienti, per cui vi offriamo un'**ampia gamma di servizi e soluzioni professionali** per aiutarvi a raggiungere i vostri obiettivi, consigliandovi e **accompagnandovi nel vostro percorso.**

Centri logistici

Garantiamo un **accesso rapido e affidabile ai nostri prodotti** grazie ai nostri **due centri logistici in Italia e in Spagna** (oltre 35.000 m2). Sono dotati di sistemi digitali avanzati, magazzini verticali automatici e sistemi innovativi di gestione degli ordini. Abbiamo un tasso di servizio superiore al 95% e un'affidabilità del **99,8% nella preparazione degli ordini.**

Prodotti Emuca

I nostri prodotti sono progettati, realizzati e commercializzati **in conformità alle normative europee vigenti**. Abbiamo un team di oltre 15 ingegneri specializzati nello sviluppo del prodotto, nella R&S&I e nella qualità.

Piattaforma digitale

Scoprite l'universo digitale che vi offriamo con un'ampia gamma di risorse digitali per i vostri progetti. I nostri **video e la modellazione 3D** vi permettono di esplorare ogni dettaglio dei nostri prodotti, così come le immagini dei prodotti, le foto applicate o gli schemi di installazione.

Reliability

*We take the satisfaction of our clients very seriously, so we offer you a **wide range of professional** services and solutions to help you achieve your goals, **advising you and accompanying you on your way.***

Logistics centres

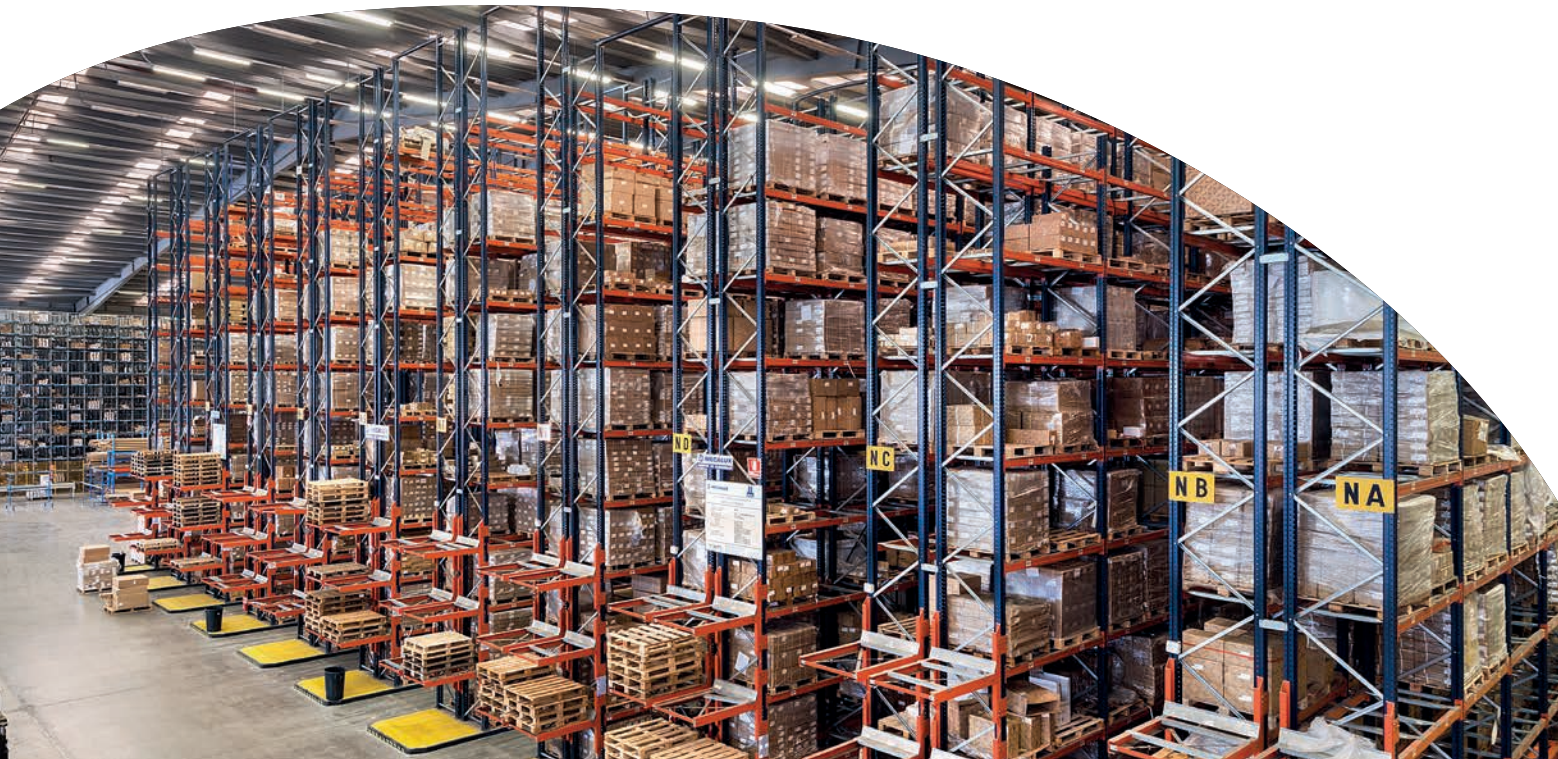
*We ensure **fast and reliable access to our products** thanks to our **two logistics centres in Italy and Spain** (over 35,000m2). They are equipped with advanced digital systems, automatic vertical warehouses and innovative order management systems. We have a service rate of over 95% and **99.8% reliability in order preparation.***

Products by Emuca

*Our products are designed, manufactured and marketed **in accordance with current European regulations.** We have a team of more than 15 engineers specialised in product development, R&D&I and quality.*

Digital platform

*Discover the digital universe we offer you with a wide range of digital resources for your projects. Our **videos and 3D modelling** allow you to explore every detail of our products, as well as product images, applied photos or installation sketches.*



Impegno

Basiamo la nostra crescita sul triplo impatto: **economico, ambientale e sociale**. Integriamo la sostenibilità in ogni aspetto della nostra attività, sviluppando soluzioni responsabili che fanno progredire il settore e costruiscono un futuro più sostenibile.

Siamo impegnati in una crescita basata sull'analisi del contesto, sulla misurazione continua e sulla ricerca dell'eccellenza, in linea con gli **11 Obiettivi di Sviluppo Sostenibile delle Nazioni Unite.**

Commitment

*We base our growth on triple impact: **economic, environmental and social**. We integrate sustainability into every aspect of our business, developing responsible solutions that drive the industry forward and build a more sustainable future.*

*We are committed to growth based on contextual analysis, continuous measurement and the pursuit of excellence, **aligned with the 11 United Nations Sustainable Development Goals.***

Impronta di carbonio

Il cambiamento climatico è fondamentale per **la nostra strategia di sostenibilità,** quindi misuriamo e riduciamo la nostra impronta di carbonio, minimizzando l'impatto sulla logistica e sulla catena del valore.

Carbon Footprint

*Climate change is key to our sustainability strategy, so **we measure and reduce our carbon footprint**, minimising the impact on logistics and the value chain.*

Monitoraggio e misurazione degli indicatori ESG

Abbiamo integrato i criteri ESG (Environmental, Social and Governance) nella nostra strategia e, tra tutti i miglioramenti implementati, segnaliamo i seguenti:

Monitoring and measuring ESG indicators

We have integrated ESG (Environmental, Social and Governance) criteria into our strategy and among all the improvements implemented, we highlight the following:

Ecodesign

Ecodesign

Riduzione al minimo risorse

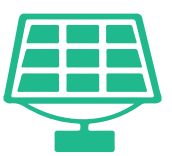
Minimisation resources

Uguaglianza di genere

Gender equality

Azioni di solidarietà

Solidarity actions



Riduzione del carbonio

Reducing the carbon

VERTEX

Design e robustezza tutto in uno. La tecnologia e il design brevettato con linee sottili, l'estetica minimalista e i colori di tendenza rendono questa gamma di cassetti eccellente. La robustezza dei materiali, come l'acciaio, e oltre 100.000 cicli garantiscono una durata a vita. Testato da severi istituti tecnologici.

Design and robustness all in one. Technology and patented design with fine lines, minimalist aesthetics and trendy colours make this range of drawers excellent. Robust materials, such as steel, and over 100,000 cycles guarantee a lifetime of durability. Tested by strict technological institutes

PROTONE

Stabilità, morbidezza e leggerezza in un cassetto facile da montare e ottimizzato per prestazioni elevate. Totalmente compatibile con le lavorazioni e le misure dei pannelli del cassetto Vertex.

Stability, smoothness and lightness in an easy-to-assemble drawer optimised for high performance. Fully compatible with the machining and dimensions of Vertex drawer boards.

soft | 30kg

CONVEX

Il cassetto Convex è composto da una sponda di profondità ottimizzata e da guide estraibili allargate, che consentono di accedere completamente all'interno del cassetto.
Questo ci permette di offrire una soluzione versatile e di qualità ad un prezzo ridotto.

The Convex Drawer consists of a depth-optimised side and extended pull-out runners, providing full access to the interior of the drawer.
This allows us to offer a high-quality, versatile solution at a lower price.

soft | 25kg

SIMPLEX

Il cassetto metallico Simplex è una soluzione versatile ed economica ideale per qualsiasi ambiente.
Si distingue per la sua leggerezza e il design minimalista. È compatibile con diverse tipologie di guide a scomparsa.

The Simplex metal drawer is a versatile and economical solution ideal for any environment.
It stands out for its lightness and minimalist design. It is compatible with various types of concealed runners.

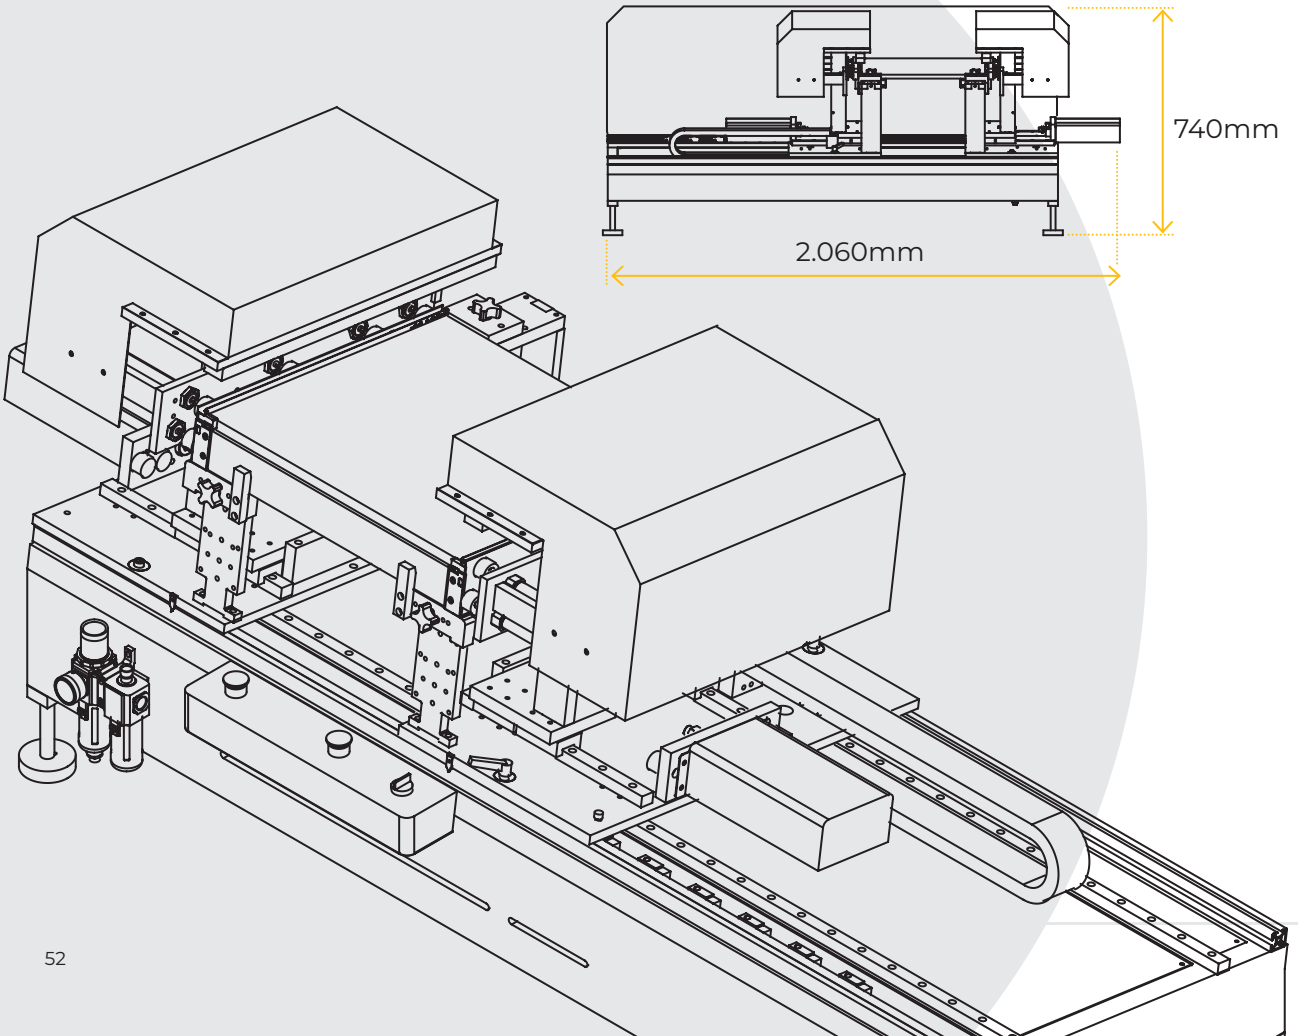
MACCHINA DI MONTAGGIO
ASSEMBLY MACHINE

La Tecnotool Max è una macchina automatica progettata per l'assemblaggio industriale di cassetti, che si distingue per la sua rapidità, precisione e facilità d'uso. La sua tecnologia avanzata e il design ottimizzato consentono di snellire i processi produttivi, garantendo un'alta qualità in ogni assemblaggio.

Grazie al suo sistema intuitivo e ai componenti preconfigurati, diventa una soluzione efficiente per automatizzare la produzione di cassetti con le massime prestazioni e affidabilità, ideale per le aziende che desiderano aumentare la produzione senza rinunciare alla precisione.

The Tecnotool Max is an automatic machine designed for the industrial assembly of drawers, which stands out for its speed, precision and ease of use. Its advanced technology and optimised design streamline production processes, ensuring high quality in every assembly.

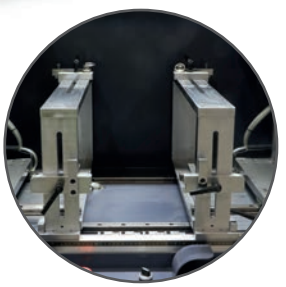
Thanks to its intuitive system and preconfigured components, it is an efficient solution for automating drawer manufacturing with maximum performance and reliability, ideal for companies looking to scale up their production without compromising on precision.

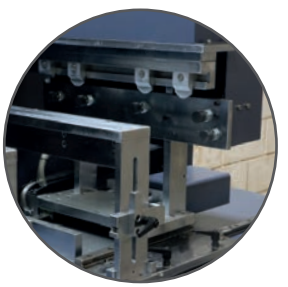


Tecnotool-pro, macchina di montaggio per cassetto Vertex / Protone
Tecnotool-pro, assembly machine for Vertex / Protone drawer

Imballaggio/Packaging	Cod.
1 UN/Unit	1908720

Acciaio, Alluminio/Aluminium, Steel





- Macchina per il montaggio di cassetti Vertex e Protone in grandi serie.
- Facile utilizzo e regolazione semplice del macchinario per le diverse misure del cassetto.
- Posizionatore di misure prestabilite e misure speciali.
- Misure della larghezza del cassetto per modulo da 300 a 1.200 mm.
- Lunghezza del laterale 270-300-350-400-450-500-550 mm.
- Compatibile con tutte le altezze di laterali disponibili
- Possibilità di montaggio soluzione salva sifone nella macchina.
- Peso del macchinario circa 650 Krg.
- Pressione di lavoro 7-8 kgr/cm2.
- Tempo di montaggio completo per cassetto circa 45 secondi.

- Vertex and Potone drawer assembly machine for mass production.
- Easy operation and simple machine adjustment for different drawer sizes.
- Positioner for pre-set and special sizes.
- Drawer width measures for modules from 300 to 1,200 mm.
- Lengths of the sides 270-300-350-400-450-500-550 mm.
- Supports all available side heights
- Optional installation of an under sink drawer solution in the machine.
- Weight of the machine approx. 650 Kg
- Working pressure 7-8 kg/cm^2.
- Complete assembly time per drawer approximately 45 seconds.

RAL7043

Il cassetto Convex è composto da una sponda di profondità ottimizzata e da guide estraibili allargate, che consentono di accedere completamente all'interno del cassetto.

Questo ci permette di offrire una soluzione versatile e di qualità ad un prezzo ridotto.

The Convex Drawer consists of a depth-optimised side and extended pull-out runners, which give you full access to the drawer interior.

This allows us to offer a high-quality, versatile solution at a lower price.

Convex Industry

Soluzione perfetta per i mobili da bagno, grazie allo spazio posteriore che rimane libero.

Thanks to the space available at the rear, it is the perfect solution for the bathroom.

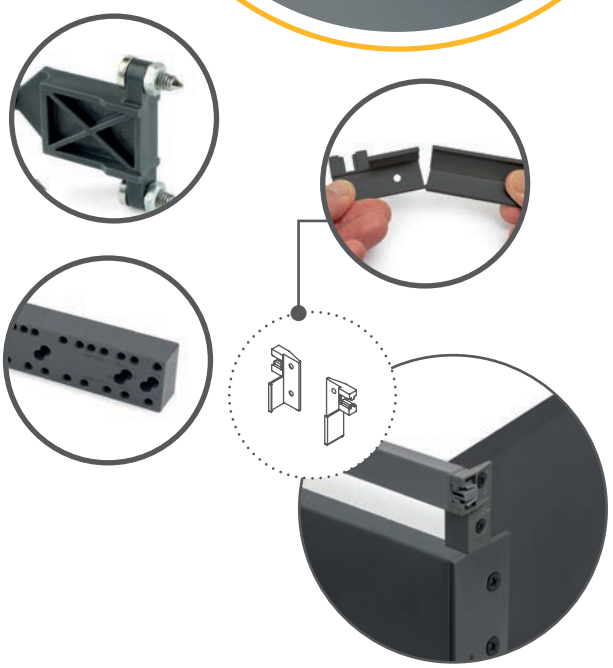
ORDERBOX

Organizzatori per cassetti Orderbox. Sono realizzati in acciaio e laminato fenolico. Questo materiale, oltre ad avere un design moderno e minimalista, offre grandi vantaggi quali resistenza all'acqua, proprietà antibatteriche e resistenza alla corrosione.

Orderbox drawer organisers. They are made of steel and phenolic laminate. This material, in addition to its modern and minimalist design, offers great advantages such as water resistance, anti-bacterial properties and corrosion resistance.

ASTINE PER CASSETTI E ALTRO ANCORA
RAILINGS FOR DRAWERS AND MORE

- Astina disponibile in tre finiture e diverse profondità.
- Accessorio di montaggio che evita di spigolare o rivestire i bordi laterali della tavola posteriore.
- Distanziatori laterali per il montaggio del cassetto con ante.
- Meccanismo di fissaggio per unire il fondo del cassetto alla guida.
- Dima di marcatura per un posizionamento preciso della guida del cassetto.



- Railing available in three finishes and different depths.
- Mounting accessory that prevents the side edges of the rear board from being chipped or veneered.
- Side spacers for mounting the drawer with doors.
- Fixing mechanism for joining the bottom of the drawer to the frame.
- Marking template for precise positioning of the drawer frame.

Macchina manuale per cassetti
Manual machine for drawer

Imballaggio/Packaging	Cod.
1 UN/Unit	9291420

Vari/Various

Senza limitazioni per quanto riguarda l'altezza e la profondità delle guide.
Macchine conforme alla directiva 98/37/CE; 2006/95/CE; 2004/108/CE.
Collegata solo ad aria compressa.
Pressione aria di lavoro: 6,12-8,16 bar.
La sequenza delle operazioni per realizzare il montaggio è la seguente:

Come si usa:
- Collocare il cassetto con l'interno rivolto verso il basso.
- Posizionare la guida sul cassetto.
- Allineare la guida sulla sponda del cassetto.
- Azionare la leva: la pinza bloccherà le alette nella sponda del cassetto.
- Ripetere questa ultima operazione per ogni aletta della guida.

No drawer width or depth limitations.
Machine according to 98/37/CE; 2006/95/CE; 2004/108/CE directive.
Only uses compressed air.
Working air pressure 6,12-8,16 bar.
The sequence of operations for mounting is as follows:

How to use:
-Turn the drawer upside down.
- Position slide on drawer.
- Line up against drawer side.
- Pull the trigger: the clip will fold and nail the tab to the side of the drawer.
- Repeat the latter for each tab on the slide.

CALCOLO PER SCELTA DELLA BASETTA (B)

Cosa significa una formula del tipo **B = 15 + D – S** ?

Come prima cosa, per conoscere una formula dobbiamo conoscere le variabili:

B = Altezza della basetta
D = Distanza di foratura dello scodellino
S = Sormonto porta -fianco
L = Luce minima
T = Spessore della porta
M = Spessore del fianco
F = Luce minima (per porta in sormonto)

VEDIAMO UN ESEMPIO

Un cliente desidera mettere una cerniera per ottenere una apertura di una porta di spessore 16 mm, con sormonto al fianco di 15 mm. La distanza di foratura dello scodellino non può essere cambiata ed è di 4 mm.

SOLUZIONE

Dato che il sormonto è grande, utilizziamo una cerniera collo dritto. La formula della cerniera collo dritto è: **B = 15 + D – S**.

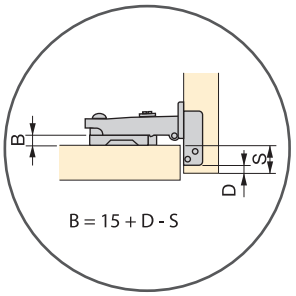
Conosciamo i valori: D = 4 e S = 15

Sostituendo nella formula:

B = 15 + 4 - 15 = 19 – 15 = 4 → **B = 4**

In tal caso, con la cerniera dritta e la base da 4mm il problema è risolto.

ESEMPIO
EXAMPLE



CALCULATION FOR CHOOSING THE HINGE PLATE (B)

What does a formula like **B = 15 + D – S** mean?

First of all, in order to understand a formula we need to know what its variables are:

B = Thickness of the Plate
D = Diameter of hinge cup
S = Door- jamb overhang
L = Minimum opening
T = Thickness of the door
M = Thickness of the jamb
F = Minimum opening (for doors without overhang)

HERE IS AN EXAMPLE

A client wishes to place a hinge so that a 16 mm door which overhangs he jamb by 15 mm opens correctly. The hinge cup diameter is 4 mm and cannot be changed.

SOLUTION

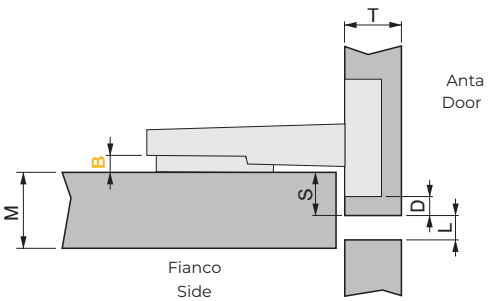
As the overhang is quite generous, we will use a straight cupboard hinge. The formula for a straight cupboard hinge is: **B = 15 + D – S**.

We know the values of: D = 4 and S = 15

Substituting them into the formula we get:

B = 15 + 4 – 15 = 19 – 15 = 4 → **B = 4**

So then, with a straight cupboard hinge and a 4mm plate the problem is solved.



A: Distanza minima.
A: Minimum distancing.

CERNIERA X92N CON SCODELLINO Ø35, APERTURA A 105°
105° HINGES X92N WITH Ø35 CUP

Cerniera senza chiusura soft e scodellino Ø35 mm.
Sistema di montaggio Clip della cerniera sulla basetta.
Spessore della porta da 14 a 24 mm.
Regolabile tridimensionalmente, con regolazione in profondità mediante eccentrico.
Tolleranza di foratura dello scodellino D = 3 ~ 7 mm.
Con chiusura "Two Way": dispone di molla solo nella chiusura della porta.

Hinge without soft close.
Hinge to plate Clip quick fixing system.
For 14 ~ 24 mm door thickness.
Adjustable in 3 dimensions, with depth adjustment by cam.
Distance to cup bore edge D = 3 ~ 7 mm.
With "Two Way" locking, only the door lock is spring-loaded.

Ø26

Cerniera senza chiusura soft.
Cerniera per porte in legno Ø26 e per ante di spessore compreso tra 12 e 18 mm.
Attacco a baionetta sulla basetta.
La cerniera consente una regolazione tridimensionale.
Angolo di apertura della porta 95°.
Con chiusura "Two Way": dispone di molla solo nella chiusura della porta.

Hinge without soft close.
Hinge for wooden doors Ø26 and for door thicknesses between 12 and 18 mm.
Bayonet fitting on the plate.
The hinge allows three-dimensional adjustment.
Door opening angle 95°.
With "Two Way" locking, only the door lock is spring-loaded.

Collo dritto X12
Full overlay hinge X12

Imballaggio/Packaging	Cod.
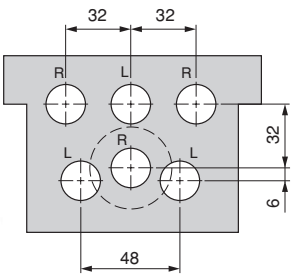
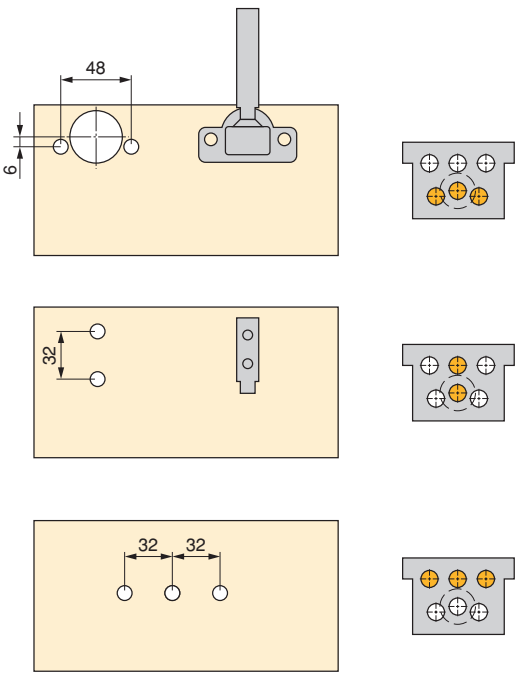
1 UN/Unit	1908620

Vari/Various





Facilita il corretto montaggio delle cerniere e delle basette con innesto a baionetta o clip.
Completa di fresa Ø35 per il foro della cerniera e Ø10 per le bussole laterali.
Testata porta-fresa per cerniere tipo 48/6 e basette da 32 mm.
Facile utilizzo e regolazione della testata.
Tensione di lavoro 220-240 / 380-440 V. Frequenza 50-60 Hz e potenza motore 0,75 Kw.
Pressione di lavoro 6 – 7 bar.
Dimensioni piano di lavoro 800 x 550 mm.
Sicurezza anti intrappolamento per totale protezione dell'operatore normativa CE.

Quick, easy and accurate positioning and drilling for bayonet and clip hinges and accessories.
Includes Ø35 bits for drilling hinges and Ø10 bits for shanks.
Door header for 48/6 type hinges and 32 mm accessories.
Easy to use and adjust stops.
Torque 220-240 / 380-440 V. Frequency 50-60 Hz and a 0,75 Kw.
Working pressure 6 – 7 bar.
Work table dimensions 800 x 550 mm.
Anti-entrapment safety mechanism provides complete operator protection and meets standards CE.

Sistema di Braccetti Altius One è una soluzione funzionale per ante elevabili.
Questo sistema è ideale per moduli con profondità ridotta e si adatta a diverse dimensioni e pesi delle ante. In combinazione con le cerniere soft di Emuca si ottiene una chiusura morbida e senza urti.

Catch system Altius One is a functional solution for lift-up doors. This system is ideal for modules with limited depth and can be adjusted to different door sizes and weights. In combination with Emuca's soft hinges, it ensures soft closing without banging.

ALTIUS ONE

Regolazione precisa e delicata della forza
Può essere calibrato con precisione in base al peso della parte anteriore, consentendo alla porta di rimanere in qualsiasi posizione.

Precise and fine force adjustment
Can be calibrated precisely according to the weight of the front, allowing the door to remain in any position.

UNICO

SLIMWINCH

Mecwcanismo per porte a libro mediante cavo d'acciaio.
Può essere montato in superficie o incassato
nel fianco del modulo, integrandolo e riducendone
l'impatto visivo.
Dispone inoltre di un sistema di apertura ammortizzata,
di assistenza alla chiusura e di regolazione della
lunghezza del cavo e della forza della molla.

Steel cable folding door mechanism.
It can be surface mounted or recessed into the side of
the module, integrating it and reducing its visual
impact. It also features a damped opening system,
closing assistance and adjustment of the cable length
and spring force.

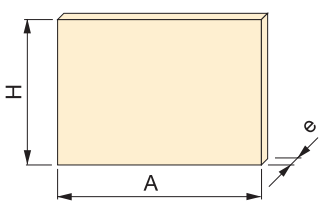
CALCOLO DEL PESO DELL'ANTA
P = Peso dell'anta in kg.
H = Altezza dell'anta in cm.
A = Larghezza dell'anta in cm.
e = Spessore dell'anta in cm.
d = Densità del materiale.
Truciolare: d = 0,72 kg/dm3.
MDF: d = 0,75 kg/dm3.
Cristallo: d = 2,54 kg/dm3.

CALCOLO DELLA FORZA DEL BRACCETTO
F = Forza in kg x cm.
P = Peso dell'anta in kg x cm.
H = Altezza dell'anta in cm.
In funzione del valore ottenuto da F (kg x cm) selezionare 1 o 2 braccetti adeguati.

CALCULATING TOTAL WEIGHT OF DOOR
P = Weight of the door in kg.
H = Height of the door in cm.
A = Width of the door in cm.
e = Thickness of the door in cm.
d = Density of door material.
Particle board: d = 0,72 kg/dm3.
MDF: d = 0,75 kg/dm3.
Glass: d = 2,54 kg/dm3.

CALCULATING STRENGTH OF STAY
F = Force in kg x cm.
P = Weight of the door in kg x cm.
H = Height of de door in cm.
Depending on the obtained value for F (kg x cm) choose 1 or 2 suitable stays.

$$P = \frac{H \times A \times e \times d}{1.000} \qquad F = \frac{H \times P}{2}$$



I pistoni per mobili Thin si distinguono per il loro design elegante, grazie al loro piccolo diametro Ø12 mm. Si distinguono inoltre per essere realizzati in acciaio con finitura verniciata in nichel opaco.

Thin furniture pistons are distinguished by their elegant design, thanks to their small Ø12 mm diameter. They are also distinguished by being made of steel with a matt nickel painted finish.

	100°	245	87	

CALCOLO PER ANTE IN LUCE:
Sommare E+1 per calcolare A e X essendo E lo spessore del pannello.
· Per ante in legno e alluminio.
· Per sormonti differenti a 15 mm sommare il valore A+15-sormonto.
· Per ante di larghezza superiore a 450 mm si consiglia l'uso di 2 ammortizzatori.

HOW TO CALCULATE THE MOUNTING:
Add E+1 to calculate A and X, being E the thickness of the board.
· For wooden and aluminium doors.
· For overhangs other than 15 mm, calculate value A+15-overhang.
· For doors wider than 450 mm the use of 2 springs is recommended.

CALCOLO DELLA FORZA DELL'AMMORTIZZATORE:
F: Forza di spinta in kg.
P: Peso dell'anta in kg.
H: Altezza anta in mm.
B: Punto di aggancio in mm.
F = (P x H x 0,6) / B

$$F = \frac{P \times H \times 0,6}{B}$$

CALCOLO DEL PESO DELL'ANTA:
P = Peso dell'anta in kg.
H = Altezza dell'anta in cm.
A = Larghezza dell'anta in cm.
e = Spessore dell'anta in cm.
d = Densità del materiale.
Truciolare: d = 0,72 kg/dm3.
MDF: d = 0,75 kg/dm3.
Cristallo: d = 2,54 kg/dm3.
P = (H x A x E x D) / 1000

$$P = \frac{H \times A \times e \times d}{1.000}$$

CALCULATING STRENGTH OF STAY:
F: Force supported by piston in kg.
P: Weight of door in kg.
H: Height of door in mm.
B: Fixing point of piston in mm.
F = (P x H x 0,6) / B

$$F = \frac{P \times H \times 0,6}{B}$$

CALCULATING WEIGHT OF DOOR:
P = Weight of the door in kg.
H = Height of the door in cm.
A = Width of the door in cm.
e = Thickness of the door in cm.
d = Density of door material.
Particle board: d = 0,72 kg/dm3.
MDF: d = 0,75 kg/dm3.
Glass: d = 2,54 kg/dm3.
P = (H x A x E x D) / 1000

$$P = \frac{H \times A \times e \times d}{1.000}$$

È necessario l'utilizzo di un distanziale nel caso in cui il mobile preveda delle ante. La sua funzione è quella di lasciare uno spazio di 25 mm tra il telaio e il fianco del mobile in modo che l'anta non vada a sbattere contro il telaio.
Puoi iniziare installando il distanziale al mobile con viti Ø4x25mm e in seguito fissare la guida con viti EURO Ø6,2x13mm. Oppure il distanziale può essere premontato alla guida grazie alle clip che incorpora, e quindi unire l'insieme all'armadio con viti Ø4x40mm.

A spacer is required on the side of the cabinet where it coincides with the door and is installed in the place where the runner goes. Its function is to leave a space of 25mm between the frame and the side of the cabinet so that the door does not collide with the frame.
You can first install the spacer to the cabinet with Ø4x25mm screws and then attach the runner with EURO Ø6,2x13mm screws. Or you can pre-mount the spacer to the rail with the built-in clips, and then attach the assembly to the cabinet with Ø4x40mm screws.

APPENDIABITI
PULL DOWN WARDROBE RAIL LIFT

INFORMAZIONI / INFORMATION

Gli appendiabiti ribaltabili per armadi consentono di accedere senza sforzo alle zone più alte. Inoltre hanno un movimento morbido con ritorno ammortizzato.

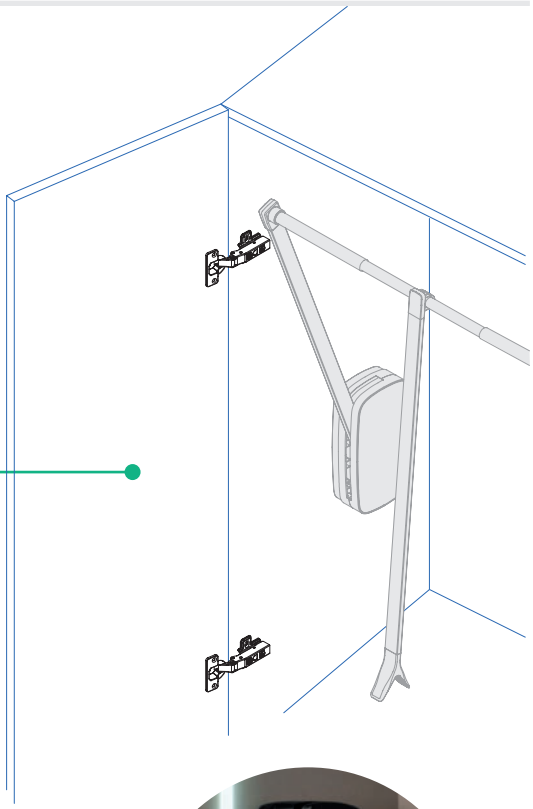
Wardrobe pull down rails allow easy access to the highest areas. They also move smoothly and have a soft return mechanism.

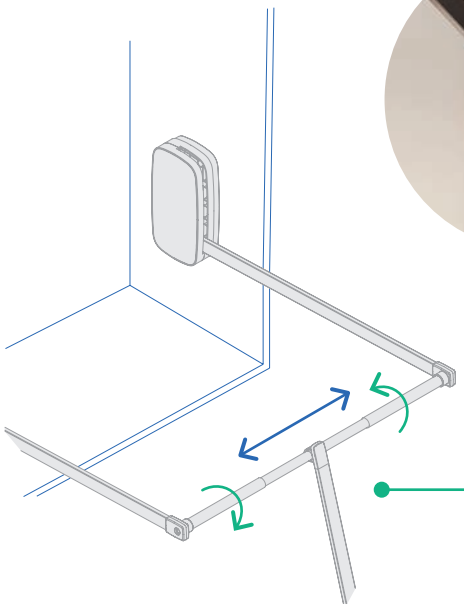
La basetta consente l'installazione dell'appendiabiti su armadi con ante battenti.

The plate allows the hanger to be installed in cabinets with hinged doors.

Il separatore consente di installare l'appendiabiti sul lato, proprio in fondo all'armadio.

The spacer allows the hanger to be installed on the side at the bottom of the cabinet.





La barra è regolabile in larghezza per adattarsi allo spazio utile dell'armadio.

The rail is adjustable in width to fit the usable space in the wardrobe.

Il kit include tutto il necessario per il montaggio di due tubi per armadio 30x15 mm Silk: il tubo, i reggitubi laterali, e le viti M6 per il montaggio.
Il tubo è dotato di una guarnizione in gomma per evitare il rumore delle grucce.
Nei kit da 1150 mm si includono inoltre 2 reggitubi centrali per fornire maggiore rigidità al tutto.

The kit includes everything needed to mount two wardrobe bars Luxe: the tube, the lateral supports, the assembly M6 screws.
The tube has a piece of PVC rubber co-extruded in order to avoid noise when moving the hangers.
The 1150 mm kits also include 2 central supports to provide the assembly with greater rigidity.

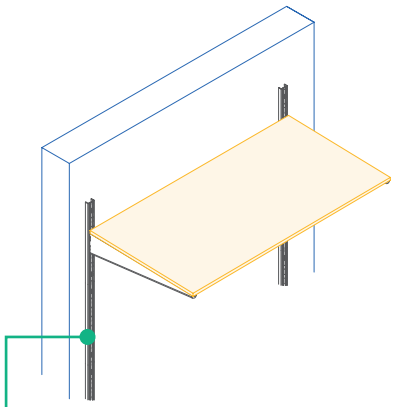
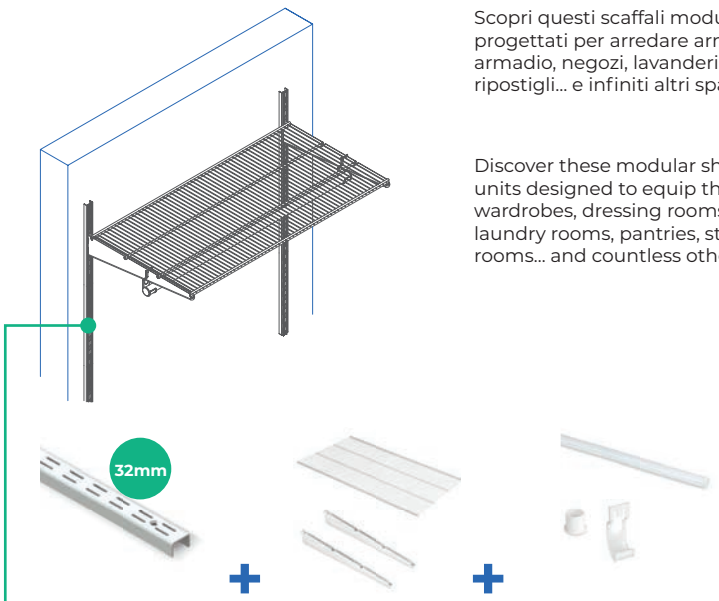
INFORMAZIONI / INFORMATION



Il profilo a doppia scanalatura con passo 32 mm e il supporto sono progettati per realizzare scaffalature con tavole.

The double slot profile with 32 mm pitch and the support are designed for shelving with boards.

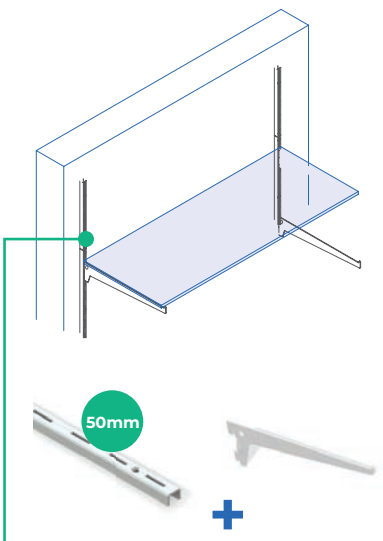


I ripiani in filo metallico vengono utilizzati insieme ai profili con passo 32 mm e alla barra per armadi, poiché dispongono di scanalature per il loro inserimento.

Wire shelves are used in conjunction with 32 mm pitch profiles and wardrobe rails, as they have slots for insertion.

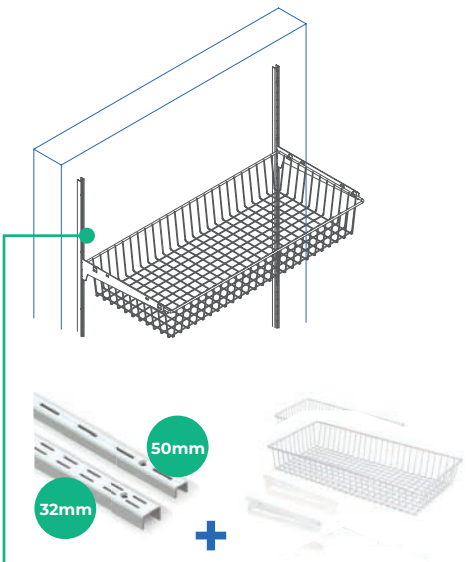
Scopri questi scaffali modulari progettati per arredare armadi, cabine armadio, negozi, lavanderie, dispense, ripostigli... e infiniti altri spazi.

Discover these modular shelving units designed to equip the interior of wardrobes, dressing rooms, businesses, laundry rooms, pantries, storage rooms... and countless other spaces.



Il profilo a scanalatura singola con passo 50 mm e il supporto sono progettati per realizzare scaffalature con vetro.

The single slot profile with 50 mm spacing and the support are designed for glass shelving.

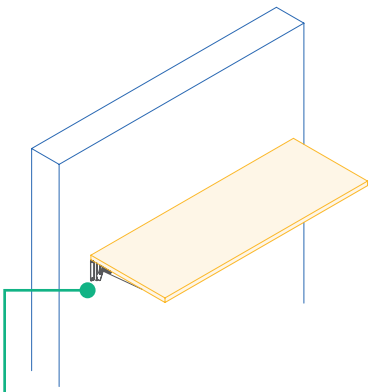


I cestelli in filo metallico sono estraibili e sono progettati per essere utilizzati insieme ai profili con passo 50 mm e con passo 32 mm.

The wire baskets are pull-out and designed for use with 50 mm pitch and 32 mm pitch Profiles.

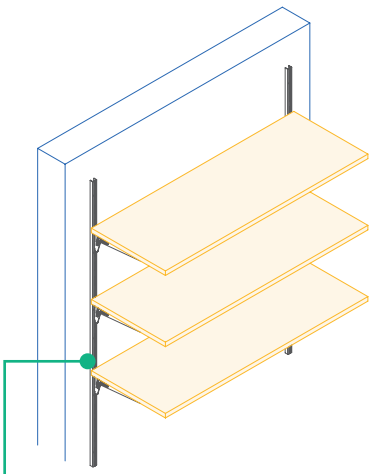
Le piastre vengono posizionate sui fori, consentendo di abbassare l'appendiabiti senza che cada.

The tabs are placed over the holes, allowing the hanger to be folded down without falling out.



Questo kit è composto da otto piastre di fissaggio e quattro set di reggipiani.

This kit consists of eight fixing plates and four pair of shelf brackets.



Questo kit è composto da due profili a cremagliera da 1 m a scanalatura singola e tre set di supporti per ripiani.

This kit consists of two 1 m single slot rack profiles and three pair of shelf supports.

INFORMAZIONI / INFORMATION

Sistema per armadi con ante scorrevoli appoggiate, con pattini superiori e carrelli inferiori in acciaio verniciato o zincato bianco. I carrelli inferiori sono dotati di cuscinetti a sfere per uno scorrimento fluido consentendo l'inserimento di ammortizzatori morbidi in entrambi i sensi di movimento, sia in apertura che in chiusura.

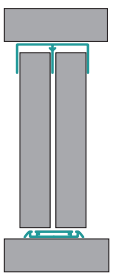
Inoltre, sono dotati di un meccanismo di bloccaggio che ne facilita l'inserimento nel binario inferiore e ne impedisce l'uscita durante l'uso.

System for cabinets with supported sliding doors, with upper runners and lower carriages made of painted or zinc-plated steel. The lower sliding gear incorporate ball bearings for smooth sliding and allow for soft bumpers to be incorporated in both directions of movement, both when opening and closing.

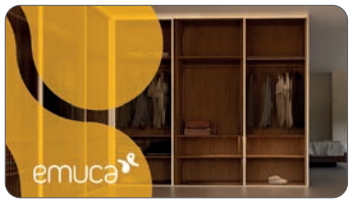
They also have a locking mechanism that facilitates their insertion into the lower track and prevents them from coming out during use.

Scegli uno dei due carrelli Placard per progettare il tuo armadio, con ruote Ø45 o Ø50.

Choose one of the two Placard sliding gear to design your cabinet, with Ø45 or Ø50 wheels.



70kg slow ±7,5



Opzioni in formato KIT.

·KIT completo: include ferramenta e profili necessari per il montaggio (escluse tavole).
·KIT parziale: composto da binari o da profili maniglie con carrelli, a seconda del tipo di installazione.

Options in KIT format.

·Complete KIT: includes fittings and profiles necessary for assembly (except boards).

INFORMAZIONI / INFORMATION

Utilizzabile per 2 e 3 ante.
Scorrimento su cuscinetti a sfera.
Pattino inferiore regolabile in altezza ± 7,5 mm con freni o ± 5 mm con Soft.
Sistema di anti scarrellamento mediante molla nel pattino inferiore.
Dispone di meccanismo di blocco della molla del pattino inferiore che facilita la installazione delle ante.
Chiusura soft in apertura e chiusura su 2 ante.
Freno superiore che permette comunque l'apertura in entrambi i lati della anta.

Suitable for 2 and 3 door wardrobe.
Ball bearing rollers.
Height adjustable sliding gear ± 7.5 mm with brakes or ± 5 mm with Soft.
Anti-derailment system with a spring in the bottom roller and adjustable top rollers.
The top rollers can be blocked to install the door easily.
Soft opening and closing mechanism for 2 door wardrobe.
Top brake system allows the doors to move doors in both directions.

INFORMAZIONI / INFORMATION

Utilizzabile per 2 e 3 ante.
Scorrimento su cuscinetti a sfera.
Pattino inferiore regolabile in altezza ± 7,5 mm con freni o ± 5 mm con Soft.
Sistema di anti scarrellamento mediante molla nel pattino inferiore.
Dispone di meccanismo di blocco della molla del pattino inferiore che facilita la installazione delle ante.
Chiusura soft in apertura e chiusura su 2 ante.
Freno superiore che permette comunque l'apertura in entrambi i lati della anta.

Suitable for 2 and 3 door wardrobe.
Ball bearing rollers.
Height adjustable sliding gear ± 7.5 mm with brakes or ± 5 mm with Soft.
Anti-derailment system with a spring in the bottom roller and adjustable top rollers.
The top rollers can be blocked to install the door easily.
Soft opening and closing mechanism for 2 door wardrobe.
Top brake system allowes the doors to move doors in both directions.

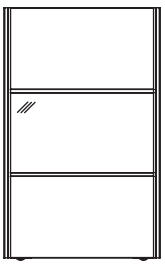
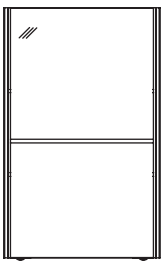
TRAVERSI PLACARD
PLACARD CROSS-PIECES
INFORMAZIONI / INFORMATION

I traversi in una porta dell'armadio Placard rinforzano la struttura, collegano i profili verticali e consentono di incorporare un vetro o un pannello centrale, dando vita a porte dal design personalizzato e funzionale.

The cross-pieces on a Placard cabinet door reinforce the structure, connect the vertical profiles and allow a glass or central panel to be incorporated, giving rise to customised and functional door designs.





Per vetro o legno.

Acciaio/Steel

Sistema scorrevole per ante appese.
Include sistema anti-scarrucolamento.
Carrelli con rotolamento a sfere.
Include viti euro per il montaggio dei carrelli e pattini.
Dispone di clip di fi fissaggio dei pattini.
Valido sia per lato destro che sinistro di apertura ante.
Posizionamento del freno superiore senza necessità di pre-foratura.
Consultare per altre composizioni di armadio.

Sliding system for hanging doors.
Includes anti-derailment system.
Ball bearing trolleys.
Includes euro-thread screws for mounting trolleys and rollers.
Fixing clip for wheels included.
Suitable for left or right opening doors.
Positioning of the upper brake without the need to pre-drill.
To consult for other compositions of wardrobe.

FLOW

Soluzione per porte scorrevoli in legno appoggiate, con scorrimento morbido, possibilità di montaggio ad incasso o a superficie, regolazione in altezza e compatibilità con chiusura soft per maggiore comfort e funzionalità.

Solution for sliding wooden doors, with smooth gliding, built-in or surface mounting options, height adjustment and compatibility with soft closing for greater comfort and functionality.

50kg 60kg

GLIDER & READY

Per porte in legno a battente, progettato per composizioni a 1 o 2 ante.
Include carrelli in tecnoplastica, con una ruota e una guida superiore con scatto a molla che facilita il montaggio sul mobile finito. Una soluzione pratica ed esteticamente gradevole, ideale per composizioni come librerie con ante scorrevoli.

For wooden doors, designed for 1 or 2 leaf compositions. Includes plastic wheels with a spring-loaded upper guide that facilitates installation in the final unit. A practical and attractive solution, ideal for compositions such as bookcases with sliding doors.

20kg

CLIPO

Il sistema Clipo è progettato per armadi con due ante in legno sospese, che scorrono dolcemente all'interno del mobile.
La versione Clipo 16 consente l'installazione di una chiusura morbida a scomparsa, senza necessità di lavorazioni sul mobile, poiché la chiusura è integrata in modo discreto all'interno del binario superiore, facilitando un montaggio rapido e pulito.

The Clipo system is designed for cabinets with two hinged wooden doors that glide smoothly inside the cabinet. The Clipo 16 version allows for the installation of a concealed soft closing mechanism without the need to machine the cabinet, as the latch is discreetly integrated into the upper track, making installation quick and clean.

15kg

FLOW

INFORMAZIONI / INFORMATION

I sistemi Flow, Flow 2 e Flow 60 offrono soluzioni versatili per ante scorrevoli in legno appoggiate, adattandosi a diversi carichi e esigenze di installazione.

· Flow è ideale per armadi a 2 ante con ante fino a 30 kg, chiusura soft e regolazione in altezza di 6 mm.

· Flow 2 supporta fino a 50 kg, consente il montaggio a superficie o ad incasso e offre una regolazione di 9 mm, oltre alla compatibilità con la chiusura soft.

· Flow 60 è progettato per armadi a 2 o 3 ante, con una capacità di 60 kg per anta, chiusura soft integrata e regolazione di 10 mm.

Tutti garantiscono uno scorrimento fluido, un montaggio semplice e una finitura funzionale ed estetica.

The Flow, Flow 2 and Flow 60 systems offer versatile solutions for supported wooden sliding doors, adapting to different loads and installation requirements.

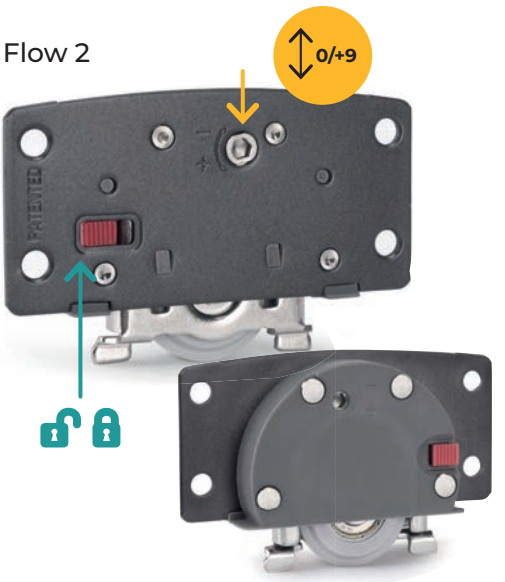
· Flow is ideal for 2-door cabinets with doors weighing up to 30 kg, soft closing and 6 mm height adjustment.

· Flow 2 supports up to 50 kg, can be surface or built-in mounted and offers 9 mm adjustment, as well as compatibility with soft closing.

· Flow 60 is designed for 2 or 3-door cabinets, with a capacity of 60 kg per door, integrated soft closing and 10 mm adjustment.

All guarantee smooth gliding, easy installation and a functional and aesthetic finish.

Flow 2



Carrelli Flow 2. Possibilità di montaggio ad incasso con fresata o a superficie.

Flow 2 wheels. Can be built-in with prior machining or surface mounted.

CONCEPTA & CONCEPTA 3

È progettato per sistemi di porte a scomparsa, a battente e scorrevoli. Può essere installato su moduli o tra pareti, consentendo di nascondere spazi o aree della casa o dell'ufficio con un'estetica integrata nel complesso.

Dispone di un sistema per ammortizzare la chiusura delle porte, evitando che sbattano.

It is designed for concealed, swing and sliding door systems. It can be installed on modules or between walls, allowing spaces or areas of the home or office to be concealed with an aesthetic that blends in with the whole.

It has a system to soften the closing of the doors, preventing them from banging.

50kg **35kg** **25kg** **soft** **Pull** **Push**

FOLDIGN CONCEPTA 3

Folding Concepta 3 per porte scorrevoli offre una soluzione compatta e funzionale per porte a libro a scomparsa. Il suo design consente di nascondere le porte negli armadi, sfruttando al massimo lo spazio disponibile.

Folding Concepta 3 for sliding doors offers a compact and functional solution for concealed folding doors. Its design allows doors to be concealed in cabinets, making the most of the available space.

20kg **25kg** **soft** **Pull** **Push**

TWOFOLD

Sistema scorrevole per armadi con 2 ante a libro senza occultamento, ideale per spazi ridotti dove non è possibile installare ante a ribalta.

Sliding system for cabinets with 2 folding doors without concealment, ideal for small spaces where it is not possible to install hinged doors.

FOLDING CONCEPTA 3

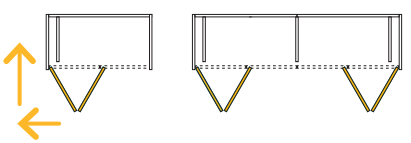
INFORMAZIONI / INFORMATION

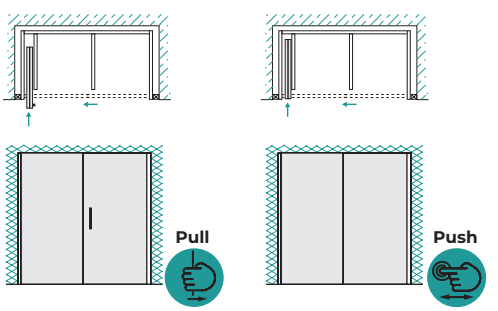
Il sistema Folding Concepta 3 è la soluzione perfetta per saloni aperti, poiché consente di installare ante scorrevoli a scomparsa che si nascondono lateralmente o tra mobili e pareti.

Il suo design con componenti preassemblati facilita il montaggio ed è disponibile in diverse versioni a seconda dell'altezza e del peso dell'anta.

The Folding Concepta 3 system is the perfect solution for open-plan rooms, as it allows sliding pocket doors to be installed that are concealed in a side panel or between furniture and walls.

Its design with pre-assembled components makes it easier to install and is available in different versions depending on the height and weight of the door.





Scegli tra due sistemi di apertura: uno più tradizionale con maniglia (Pull) e uno più minimalista e moderno senza maniglia (Push).

Choose between two opening systems: a more traditional one with a handle (Pull) and a more minimalist and modern one without a handle (Push).

Scegli tra una varietà di sistemi di porte sospese in legno, ognuno con configurazioni studiate per adattarsi allo stile e alle esigenze del tuo spazio.

Choose from a variety of wood hanging door systems, each with configurations designed to suit the style and needs of your space.

WALL

Il sistema per porte scorrevoli sospese in legno Wall è una soluzione completa per l'installazione di una porta a parete, ideale per ambienti moderni e funzionali.

The Wall sliding door system for suspended wooden doors is a complete solution for installing a door on a wall, ideal for modern and functional environments.

RAILWAY & RAILWAY RETRAC

I sistemi Railway e Railway Retrac sono soluzioni per porte scorrevoli sospese in legno che combinano funzionalità e design. Railway si installa a soffitto o a parete senza lavorazioni, mentre Railway Retrac si integra in controsoffitti e richiede lavorazioni. Entrambi garantiscono un movimento fluido e un'integrazione visiva pulita ed elegante.

The Railway and Railway Retrac systems are solutions for suspended sliding doors in wood that combine functionality and design. Railway is installed on the ceiling or wall without machining, while Railway Retrac is integrated into a false ceiling and requires machining. Both guarantee smooth movement and clean, elegant visual integration.

BARN

Il sistema per porte scorrevoli sospese in legno Barn è una soluzione pratica e decorativa, perfetta per creare ambienti in stile rustico o moderno. Garantisce uno scorrimento fluido e un'installazione rapida e semplice.

The Barn suspended sliding door system for wood is a practical and decorative solution, perfect for creating rustic or modern environments. It guarantees smooth sliding and quick and easy installation.

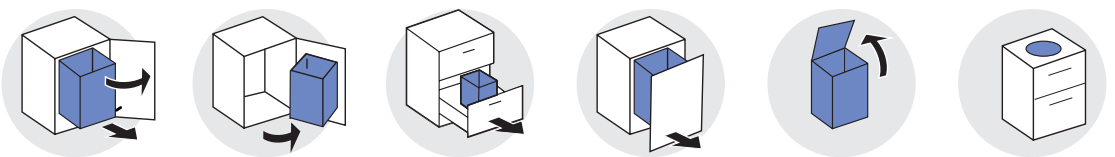
Mantenere la cucina pulita e organizzata non è mai stato così facile. In Emuca abbiamo contenitori per la spazzatura progettati per adattarsi al tuo spazio e aiutarti a riciclare senza complicazioni.

Keeping your kitchen clean and organised has never been easier. At Emuca, we have containers designed to fit your space and help you recycle without complications.

Scegli contenitore più adatto alla tua cucina e semplifica il riciclaggio. Disponibili in vari modelli: fissi, automatici, estraibili, laterali, grandi, piccoli, a uno o più scomparti... Decidi tu quale si adatta meglio al tuo spazio e alle tue esigenze.

Choose the perfect bin for your kitchen and make recycling easier. Available in different models: fixed, automatic, pull-out, side, large, small, with one or more compartments... You decide which one best suits your space and needs.



Offriamo opzioni che vanno dai singoli secchi da 35 litri ai sistemi di riciclaggio a più scomparti.

We offer options ranging from individual 35-litre containers to multi-compartment recycling systems.

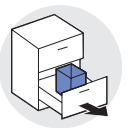
PER CASSETTI
FOR DRAWERS

INFORMAZIONI / INFORMATION

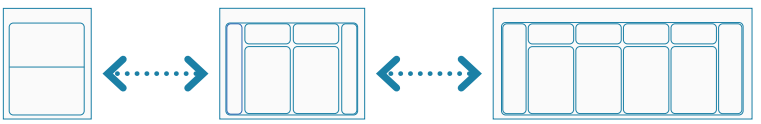
Le pattumiere per cassetto Recycle facilitano la raccolta dei rifiuti in modo discreto e ordinato, poiché sono integrate nei mobili della cucina.

Bins for drawers Recycle make it easier to collect waste in a discreet and orderly way as they are integrated into the kitchen furniture.



Basi da 450 a 1.200 mm.

Bases from 450 to 1,200 mm.



Due altezze di contenitori per diversi tipi di cassetti.

Two heights of containers for different types of drawers.

- Nuovi kit con coperchi anti-odore
- New Kits with anti-odour caps

Elimina i cattivi odori e dona un aroma di agrumi che dura fino a 3 mesi.

Eliminates bad odours and provides a citrus scent that lasts up to 3 months.

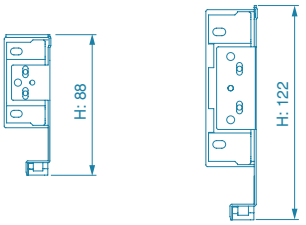
TITANE SIMPLEX

INFORMAZIONI / INFORMATION

Progettato per moduli bassi ausiliari, il portabottiglie Titane Simplex di Emuca garantisce ordine e accessibilità con un tocco minimalista. La sua struttura in lamiera resistente e la base in melamina garantiscono durata e un'estetica moderna.

Designed for low auxiliary modules, Emuca's Titane Simplex bottle rack provides order and accessibility with a minimalist touch. Its sturdy tough metal structure and melamine base guarantee durability and a modern look.



La confezione contiene due ripiani assemblati, uno di 122 mm e l'altro di 88 mm di altezza, insieme a guide estraibili e piastre di copertura per una finitura pulita ed elegante.

The package contains two assembled shelves, one 122 mm high and one 88 mm high, together with full pull-out runners and cover plates for a clean and elegant finish.

SISTEMA SHELVO
SHELVO SYSTEM

INFORMAZIONI / INFORMATION

SHELVO

Il sistema Shelvo di Emuca ottimizza lo stoccaggio negli angoli con vassoi girevoli a 3/4, a mezzaluna e circolari. Con una capacità fino a 20 kg per vassoio, consentono un comodo accesso e una migliore organizzazione in moduli da 800 e 900 mm.

Inoltre, il vassoio centrale è regolabile in due altezze e il tubo centrale è estensibile, adattandosi a diverse configurazioni e altezze dei moduli.

The Emuca Shelvo System optimises storage in corner units with 3/4, half-moon and circular carousel trays. With a capacity of up to 20 kg per tray, they allow easy access and better organisation in 800 and 900 mm modules.

In addition, the central tray can be adjusted to two heights and the central rail is extendable, adapting to different configurations and module heights.

TAVOLA DA STIRO
IRONING BOARD

INFORMAZIONI / INFORMATION

Le tavole da stiro pieghevoli sono una soluzione ideale per ottimizzare lo spazio. Il loro design consente di installarle su un mobile o all'interno di un armadio, tenendole nascoste e raccolte quando non vengono utilizzate. Inoltre, la loro rotazione di 180° offre maggiore comodità e versatilità, rappresentando un'alternativa più pratica ed efficiente alle tavole tradizionali.

Folding ironing boards are an ideal solution for optimising space. Their design allows them to be installed on a piece of furniture or inside a cupboard, keeping them hidden and tidy when not in use. In addition, their 180° rotation provides greater comfort and versatility, offering a more practical and efficient alternative to conventional boards.

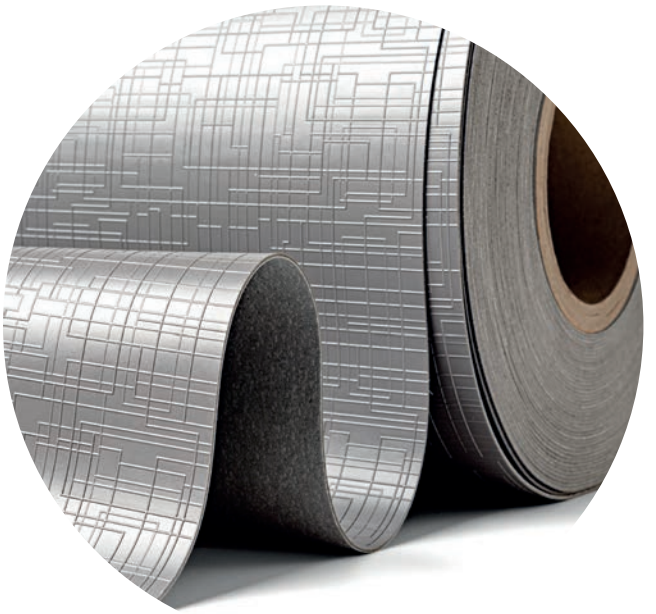
TAPPETO GOFFRATO ANTISCIVOLO
ANTI-SLIP MAT

INFORMAZIONI / INFORMATION



I tappeti goffrati antiscivolo Emuca sono progettati per impedire che contenitori, pentole e altri piccoli utensili scivolino durante l'apertura e la chiusura dei cassetti. Il loro design ritagliabile consente di adattarli a cassetti di diverse dimensioni, garantendo una protezione ottimale delle superfici contro urti e graffi.

Emuca's anti-slip mats are designed to prevent containers, pots and other small utensils from sliding around when drawers are opened and closed. Their cut-to-size design allows them to be adapted to different drawer sizes, ensuring optimum protection of surfaces against knocks and scratches.

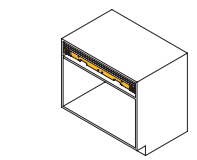
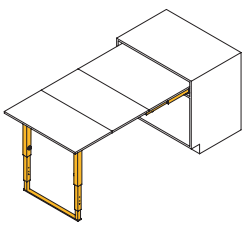
PARTY

Il tavolo Party è progettato con un sistema estraibile pieghevole con doppia gamba telescopica, questo sistema è pensato per la cucina ma può essere utilizzato anche in altri ambienti della casa.
Sistema per un tavolo pieghevole nascosto di 1.380 mm di lunghezza.

The Party table is designed with a folding pull-out system with double telescopic legs. This system is intended for use in kitchens, although it can also be used in other rooms of the home.
System for a hidden folding table 1,380 mm long.





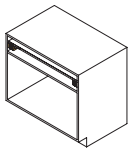
100kg

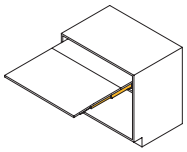
COKTAIL REVERSE

Sistema allungabile composto da guide per tavoli pieghevoli estraibili a scomparsa all'interno di un vano che può ospitare un cassetto.
Tavolo aggiuntivo per ambienti cucina di 750 mm di lunghezza.

The extendable system consists of runners for pulling out a folding table concealed inside a compartment that could house a drawer.
Additional table in kitchen environments, 750 mm long.

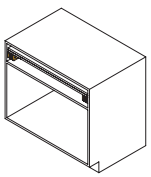
60kg



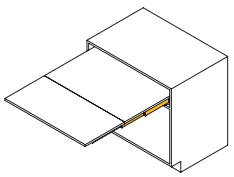


LUNCH

Sistema estensibile composto da guide per tavoli pieghevoli estraibili a scomparsa. Per ambienti cucina, lunghezza 895 mm.

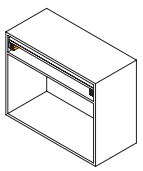


Extendable system consisting of runners for pull-out of a concealed folding table. For kitchen environments, 895 mm long.



LUNCH+39

Sistema per tavolo estraibile a scomparsa per ambienti di lavoro, lunghezza 705 mm.
L'uso di questo sistema è indicato per salotti o home-office, poiché la profondità di installazione è di 390 mm.



Concealed pull-out table system for work environments, 705 mm long. This system is designed for use in living rooms or home offices, as the installation depth is 390 mm.

GUIDE PER TAVOLI SCORREVOLI
SLIDING TABLES RUNNERS

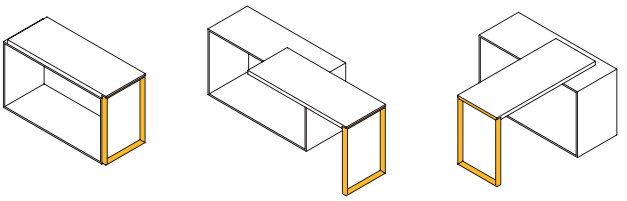
INFORMAZIONI / INFORMATION

SESTANTE

Tavolo scorrevole e girevole da installare su un'isola cucina o su una superficie lineare.

Sliding and swivelling table for installation on a kitchen island or linear surface.

80kg



Il sistema è composto da una doppia gamba regolabile in altezza, un sistema di guide che consentono lo spostamento in due direzioni e profili di guida, il tutto permette al tavolo di ruotare di 180° ottenendo un'ampia superficie aggiuntiva.

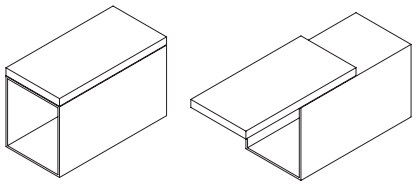
The system consists of a double height-adjustable leg, a system of runners that allow movement in two directions, and **runner** profiles. Together, these components enable the table to rotate 180°, providing a very large additional surface area.

TWICE TOP

Ottieni una superficie di appoggio estensibile per preparare i pasti o gustarli. Destinata principalmente alle cucine a isola o penisola con una lunghezza di 1.200 mm e una larghezza da 600 a 900 mm.

Get an extendable surface for preparing or enjoying meals. Mainly designed for kitchens with islands or peninsulas measuring 1,200 mm in length and 600 to 900 mm in width.

60kg



CORNER

Goditi il tavolo scorrevole con una superficie estensibile aggiuntiva per l'isola o la penisola della tua cucina, dotandola di maggiore spazio e funzionalità con un solo movimento. L'installazione è possibile su isole e penisole di 900 x 900 mm.

Enjoy the sliding table with an additional extendable surface for your kitchen island or peninsula, providing more space and utility in a single movement. Installation is carried out on islands and peninsulas measuring 900 x 900 mm.

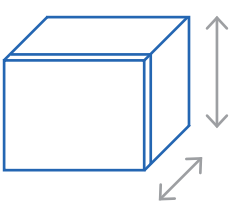
Gli appendiabiti per moduli sono regolabili in altezza e profondità, consentendo di regolare facilmente la posizione del modulo una volta installato.

The module hangers are height and depth adjustable, allowing the position of the module to be easily adjusted once installed.



L'appendiabiti Holdy fissa il mobile alla parete in modo sicuro, sostenendo fino a 65 kg di peso. È facile da installare e permette una regolazione precisa: 17 mm in profondità, 13 mm in altezza e 8 mm lateralmente.

The Holdy hanger secures the unit to the wall with complete safety, supporting up to 65 kg in weight. It is easy to install and allows for precise adjustment: 17 mm in depth, 13 mm in height and 8 mm at the sides.

La gamma di sistemi di montaggio Emuca offre soluzioni robuste e funzionali per unire e fissare mobili in totale sicurezza. Realizzati in materiali resistenti come acciaio e zama, sono progettati per facilitare il lavoro del professionista, consentendo montaggi rapidi, stabili ed esteticamente discreti.

Emuca's range of mounting systems offers robust and functional solutions for joining and securing furniture with complete safety. Manufactured from resistant materials such as steel and Zamak, they are designed to make the professional's job easier, allowing for quick, stable and aesthetically discreet assembly.

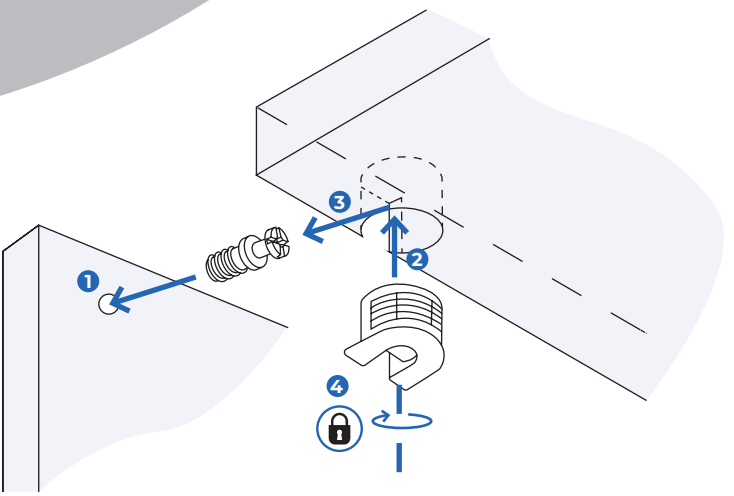
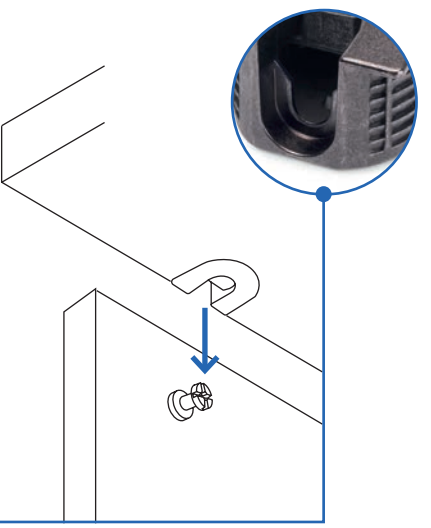
CHECK Ø20

INFORMAZIONI / INFORMATION

Il gancio Check consente di fissare in modo sicuro e discreto ripiani in legno in armadi, scaffali o librerie.

The Check latch allows wooden shelves to be securely and discreetly attached to cabinets, shelving units or bookcases.





La versione con collare include un bordo che migliora l'assetto del tirante e richiede un montaggio in direzione verticale.

The version with collar includes a ridge that improves bolt seating and requires vertical mounting.

Con colmo/With ridge

La versione senza collare può essere installata sia in verticale che in orizzontale, facilitando così il suo utilizzo in diverse configurazioni di arredamento.

The collarless version can be installed both vertically and horizontally, making it easy to use in different furniture configurations.

Lighting Playlist

Ispirazione per creare spazi con luce propria

Scopri con noi le diverse possibili installazioni in ogni ambiente delle tua casa, utilizzando convertitori, sensori, strisce LED, luci LED, e tanti altri componenti del sistema illuminazione.

Inspiration to create spaces with their own light

Discover how electrical installations have been solved in different environments, integrating drivers, sensors, LED strips, LED lights and other lighting system components.

ILLUMINAZIONI LED
LED LIGHTS

Ampia gamma di luci LED

Nel nostro catalogo troverai un'ampia gamma di soluzioni, dalle strisce LED flessibili che consentono di creare forme curve e offrono una luce omogenea e continua, alle guide elettrificate, alle applique lineari, ai luci per cassetti, a batteria, agli specchi illuminati, all'illuminazione per il bagno o alle barre appendiabiti con luce integrata. Tutti sono progettati per offrire funzionalità, design ed efficienza in ogni installazione.

Wide range of LED lights

In our catalogue you will find a wide range of solutions, from flexible LED strips that allow you to create curved forms and provide seamless, continuous light, to electrified tracks, linear lights, lights for drawers, battery-powered lights, illuminated mirrors, bathroom lights and hanging rails with integrated lighting. All of them are designed to provide functionality, design and efficiency in every project.
