HACK FOR WARDROBE

TREND IN THE DESING

HACK FOR WARDROBE

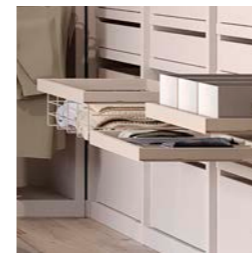

The new Hack accessories for closets and dressing rooms are specially created to organize your home in the most elegant way. Its minimalist design stands out for its textured finish in stone gray or black, the latest trend in the design of closets in bedrooms and dressing rooms.

Los nuevos accesorios para armarios y vestidores Hack están especialmente creados para organizar tu hogar de la forma más elegante. Su cuidado diseño de estilo minimalista, destaca por su acabado texturizado en color gris piedra o negro, la última tendencia en el diseño de armarios en dormitorios y vestidores.

I nuovi accessori Hack per armadi e cabine armadio sono creati appositamente per organizzare la tua casa nel modo più elegante. Il suo accurato design in stile minimalista si distingue per la sua finitura testurizzata in colore grigio pietra o nero, l'ultima tendenza in fatto di design degli armadi per le camere da letto e le cabine armadio.

Set of side spacers for frame Hack

Juego de distanciadores laterales para bastidor Hack // Set di distanziali laterali per telaio Hack

Finishing	Quantity	Cod.
Stone colored plastic	2	7115436

Plastic

- A spacer is required on the side of the cabinet where it coincides with the door and is installed in the place where the guide goes. Its function is to leave a space of 25mm between the frame and the side of the cabinet so that the door does not collide with the frame.
- You can first install the spacer to the cabinet with $\varnothing 4 \times 25$ mm screws and then attach the slide with EURO $\varnothing 6,2 \times 13$ mm screws. Or you can pre-mount the spacer to the rail with the built-in clips, and then attach the assembly to the cabinet with $\varnothing 4 \times 40$ mm screws.

- Se requiere de un distanciador en el lateral del armario donde coincida con la puerta y se instala en el lugar dónde van la guía. Su función es dejar un espacio de 25mm entre el bastidor y el lateral del armario para que puerta no choque con el bastidor.
- Se puede instalar primero el distanciador al armario con tornillos de $\varnothing 4 \times 25$ mm y después unir la guía con tornillos EURO $\varnothing 6,2 \times 13$ mm. O se puede premontar el distanciador a la guía con unos clips que incorpora, y después unir el conjunto al armario con tornillos $\varnothing 4 \times 40$ mm.

- È necessario un distanziatore sul lato dell'armadio dove coincide con l'anta e viene installato nel punto in cui va la guida. La sua funzione è quella di lasciare uno spazio di 25 mm tra il telaio e il fianco del mobile in modo che l'anta non vada a sbattere contro il telaio.
- Puoi iniziare installando il distanziatore al mobile con viti $\varnothing 4 \times 25$ mm e in seguito fissare la guida con viti EURO $\varnothing 6,2 \times 13$ mm. Oppure il distanziatore può essere premontato alla guida grazie alle clip che incorpora, e quindi unire l'insieme all'armadio con viti $\varnothing 4 \times 40$ mm.
